Dual-Enrollment as JFE and/or SCE

Cohorts are formed each year for three distinct programs that may meet a student's JFE and/or SCE requirement. There are two professional certification pathways (Cybersecurity and Video Game Development) that begin in the summer, and a specifically structured bioscience research experience that is only offered in the fall. College courses

taken in isolation will not be approved as a JFE or SCE.

Summer 2018 Junior Fellowship Experience

Mandatory Attendance Dates: May 29-June 1 and July 23-July 26
Approximate Summer School Enrollment \$100

- Summer JFE is by choice and through approval. Students must be in good academic standing to participate in a summer JFE. It will otherwise be scheduled for 7th period either fall or spring semester.
- If more students apply than there is space available, grades and attendance will be used in the acceptance process.
- Opportunity postings with application directives will be available through eCLASS beginning in February.
- Students will need reliable internet access to submit work through eCLASS throughout the summer.
- ALL summer JFE students are required to attend the mandatory attendance dates listed above. Only students who are participating in a residential academic program will be excused from one of those weeks and these students will still be required to submit work on time. Other absences will result in the student being dropped from the summer roster. No refunds will be disbursed for students dropped due to non-attendance on a mandatory date.
- A list of excellent summer programs that could potentially meet the internship requirement is now posted in eCLASS.

There will be a JFE information session for students and parents on Curriculum Night, Thursday, March 1st.
