

GSMST No Pass / No Play Policy

The mission of GSMST is to nurture the talents and high potential of all students through a unique, challenging and integrated curriculum with a focus on math, science, and engineering. While physical fitness is recognized as being extremely important at GSMST, students' academic success is first and foremost. The objective of this policy is to encourage high student success in the classroom.

Any student who is not passing all of his/her current classes with a 70% or better in each individual course will not be able to use the gym during the open gym time, after school, or during the intervention time during the school day. A course average of 70% or less indicates that a student is struggling in a course and should be attaining academic intervention. Students who are carrying below a 70% average in any subject area should seek academic support during the designated intervention times, held daily at GSMST, and after school upon individual teacher permission.

Student grades will be re-assessed every three week intervention period. Until the student is able to raise his/her course average to above a 70% he/she will be encouraged to seek academic support and will be held out of all open gyms.
